Cognitive Dissonance and How It Affects Us

Cognitive dissonance occurs when we hold two contradictory thoughts, like either believe one to be more true, which can make the sensation more or less uncomfortable.

Although there may be no visible indications, the discomfort is real.

To deal with the discomfort, we might avoid the data, dismiss it as false, or seek to justify our standing thought.

If we don't embrace the discomfort, or accept that our primary thought might be partially or completely inaccurate, it's difficult to take in other information.

What's In It for You

You'll learn to embrace cognitive dissonance and see the character for what it is.

You'll be equipped to vote for a candidate that actually aligns with your ideals.

You'll be able to engage in more meaningful conversations with others about public policy, and know when to challenge.

MASTERCLASS COMMON SENSE AMERICA

Presented by: J.D. Watson

How to Become a Smart Voter and Engage Others

Understanding public policy can be daunting, but it's possible!

There is a simple system to learn how to do this.

1 - Identify Management

2 - Consumer Conflicting Information

A-Analysis

Let's apply that to the event, the Ukraine.

The most recent Russian-Ukraine began on 24 February.

By 28 February, a 25-mile Russian convoy became stalled for weeks being able to retreat.

How did these vehicles get away without being destroyed in place, and why?

Who might gain from these vehicles getting away and the war being allowed to continue?

N-Now Advocate

Sales Funnel

No Experience Needed

What does this mean for you as an owner? Well, started Soccer Gemz without ever playing soccer a day in my life.
Many of our best coaches haven't played soccer. Parents don't ask and players don't care.
Don't need regulation size field or coaches don't need to be licensed by any youth sports federation this makes our brand opportunity to get started quickly.
Overhead and the business owner expense will be coaches that only means that if you are coaches that means families registering.

Vision

To create a national brand that brings innovative and fun soccer programs to students in communities that builds financially successful lifestyles.

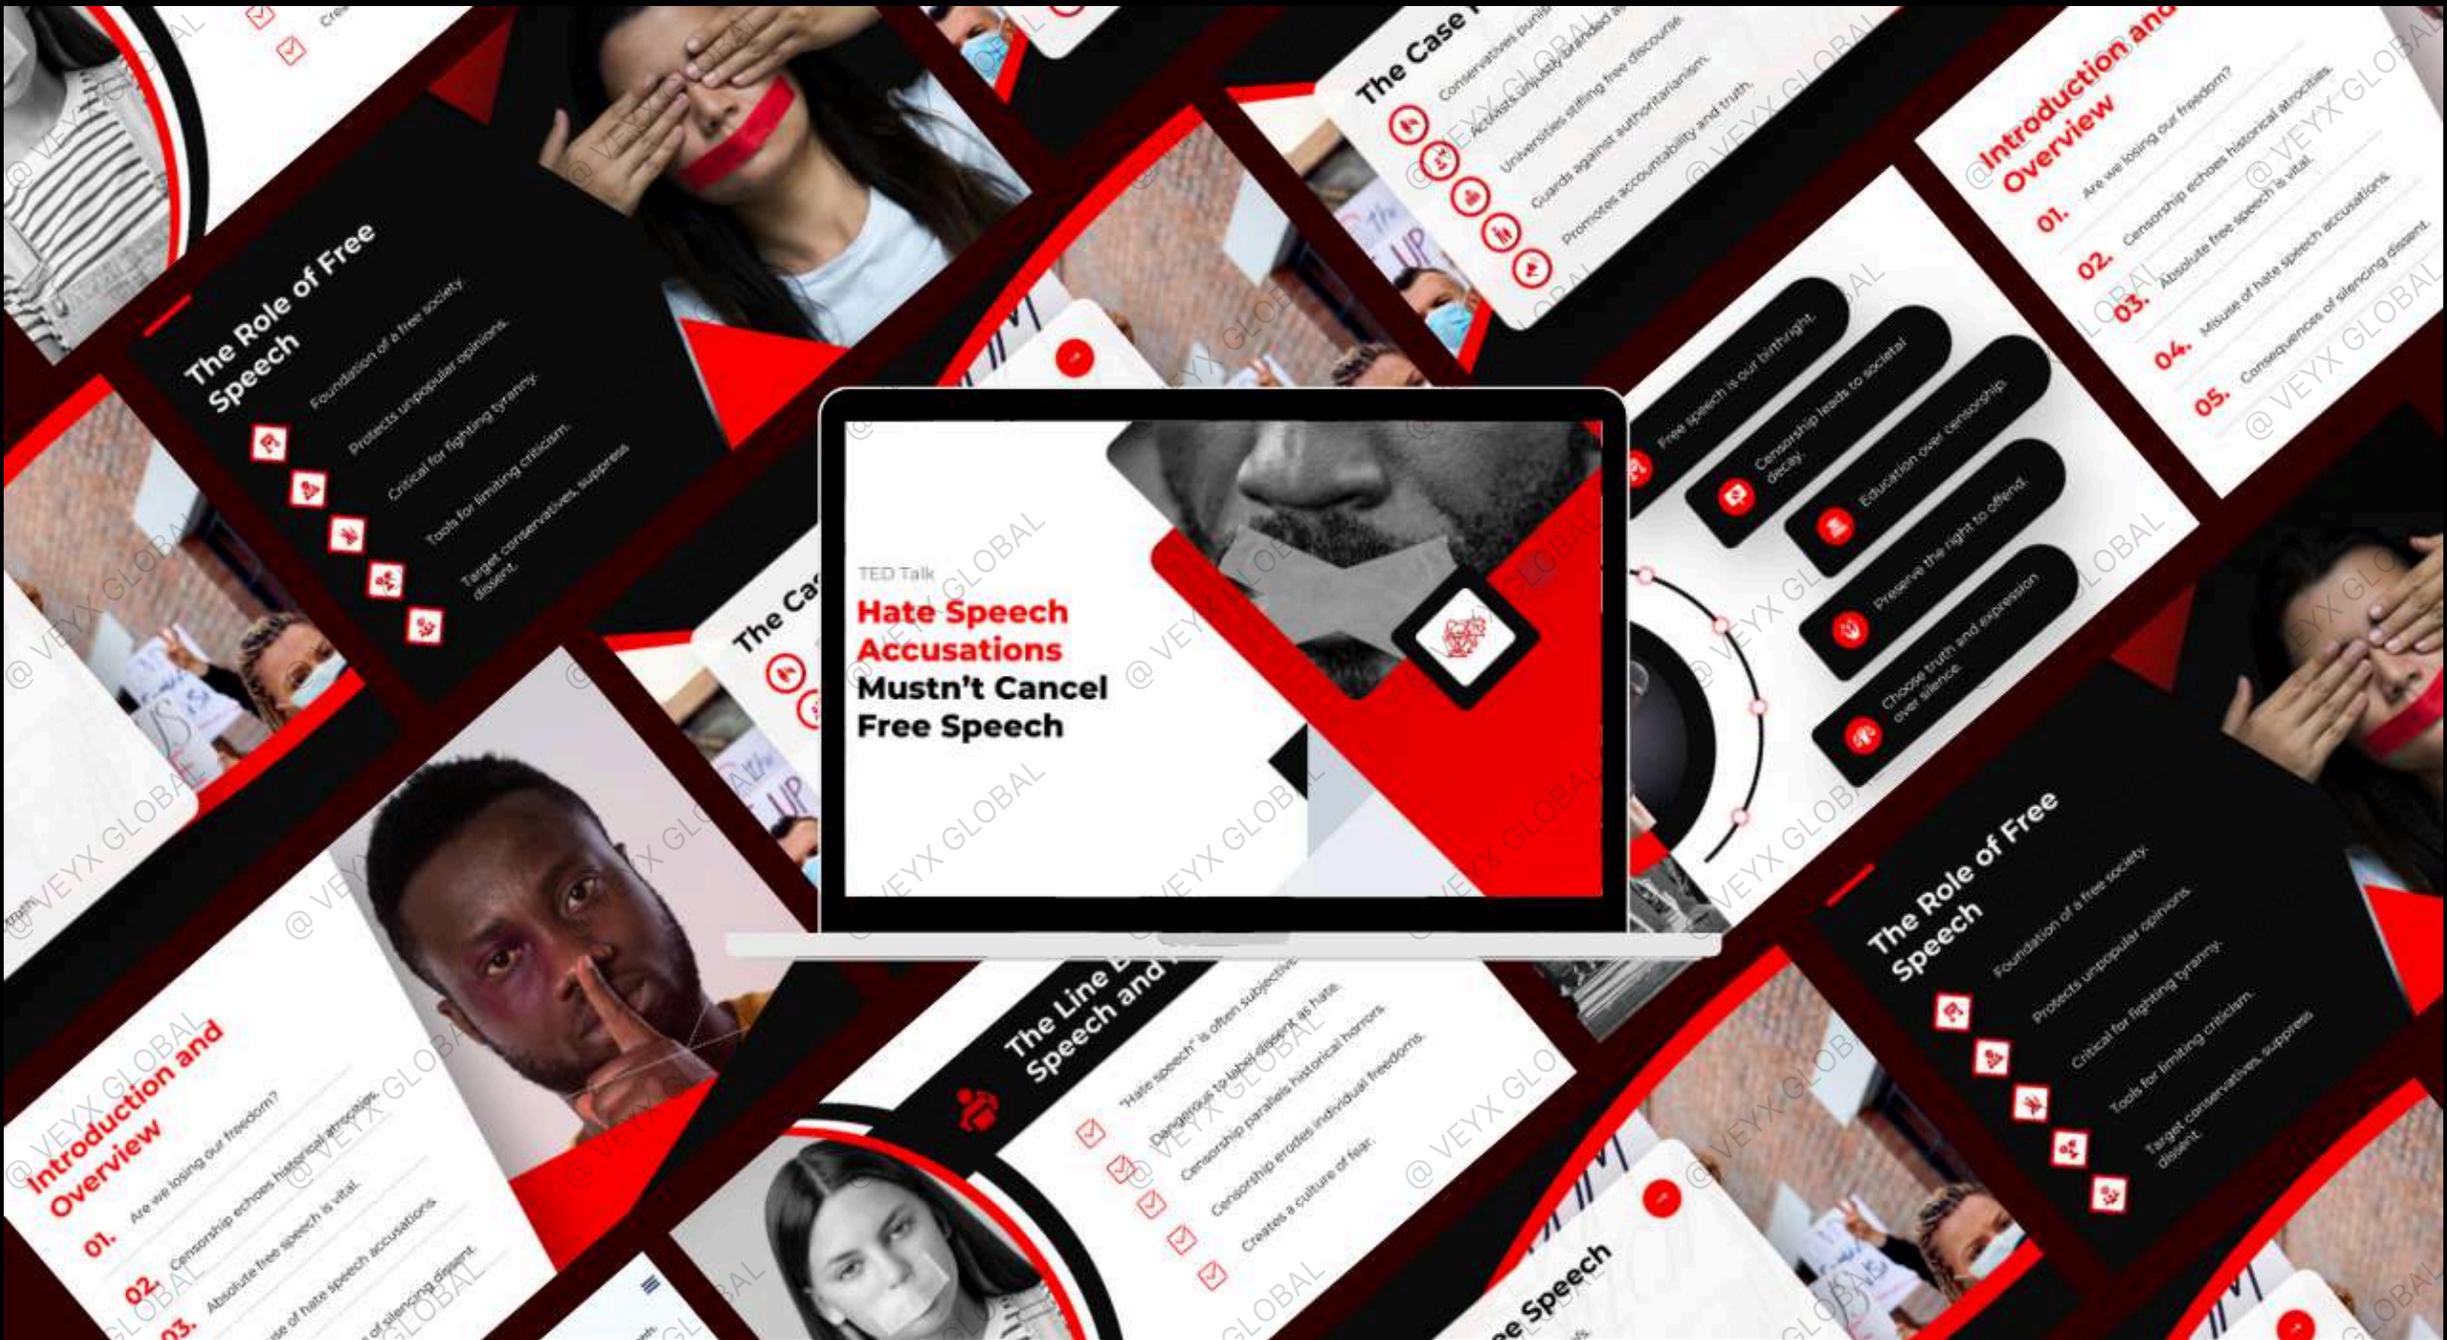

Innovation

We are committed to improving strategies making it seamless for you as a business owner to be successful.

Message to Acquirer

Final Message to the Acquiring Company

- Bedessee Imports has built a reputation for trust, quality, and strong connections within the ethnic food market. We're not from another distributor, we're a family-run business with decades of experience that extends across the Caribbean, U.S., and Canadian markets.
- As we enter into the next phase, we're not just seeking a transaction, we're looking for a partner who values the strong relationships and reputation we've cultivated over 47 years. Together, we can take this legacy forward and expand it.
- Our name is well-respected in the market, particularly in regional markets like Jamaica and Trinidad, and we're proud of the community we've built. This acquisition would give your company a strong foothold in the ethnic food industry, opening up opportunities for significant market share growth and profitability.

Executive Summary and Company Overview

- Founded in 1977 by Lionel M. Bedessee to meet the need for ethnic food products in North America.
- Vision evolved to focus on distributing authentic Caribbean and Cayenne products to immigrant and communities in the U.S. and Canada.
- Today, Bedessee Imports is a leader in ethnic food distribution, serving diverse communities across North America.
- Bedessee Caribbean Food Specialist is the distribution arm in the USA for all of Bedessee products.

Deal Terms and Expectations

Primary Goals for the Acquisition

1. Focus on scaling operations in expanding product lines in certain U.S. supermarket chains.
2. Maintaining brand equity is critical for the company, as Bedessee has built a strong reputation over decades of successful operations.

\$1500 Month

Affordable homes in less than 60 days. Ideal for long-term stays (2+ months).

Market Size and Growth: The global tiny homes market was valued at approximately \$2.914 billion in 2023, and is projected to reach \$2,889 billion by 2033, growing at a compound annual growth rate (CAGR) of about 3.5%. (Business Research Insights)

Affordability and Sustainability: Tiny homes are gaining popularity due to their lower costs and eco-friendly designs, offering a sustainable alternative to traditional housing.

Environmental Impact: Tiny homes have a smaller carbon footprint, promote a simpler, more sustainable lifestyle.

Market Growth and Demand: The modular construction industry has expanded significantly, with its annual market share more than tripling from 2015 to 2023, reaching 6.8%, indicating strong acceptance and demand. (Wall Street Journal)

Efficiency and Innovation: Advancements in modular housing enable homes to be the quickest shipped nationwide, and assembled quickly, demonstrating efficiency and flexibility. (Forbes)

The Growth of Flexible Home Solutions

The global remote-work trend has increased significantly, with 27% of U.S. workers expected to remain fully remote through 2025. McKinsey & Company predicts that this trend will continue to drive the growth of flexible living spaces, as workers seek digital nomad-friendly environments that offer flexibility in terms of location and rental arrangements.

The Problems

Affordable Housing Shortage: The U.S. faces a severe housing crisis. According to National Low Income Housing Coalition (NLIHC), there is a shortage of 7 million affordable rental homes for extremely low-income renters (2023). The average monthly rent has soared in most cities, with a 20% increase in rent prices from 2020 to 2023, making traditional housing unaffordable for many.

Demand for Flexible Housing: Remote work trends: Over 50% of Americans are working remotely, with many seeking the flexibility to live in different locations rather than being tied to a specific city. Millennials and Gen Z are choosing smaller, sustainable living options that align with their values and lifestyle preferences.

The Solution

Quantum Bottle: A smart hydration system

- Tracks VEYX Cup with precision sensors
- UV-C sterilization keeps straws clean
- Heated rim for comfort and recovery

The Problem

- Dehydration reduces performance by up to 30% in athletes
- Over 50% of athletes arrive at practice/games under-hydrated
- In Texas heat, hydration isn't performance — it's safety

Why FC Dallas

Enhance player performance & safety across all levels

- Academy integration: teach young athletes hydration habits early
- Fan engagement: co-branded bottles for loyalty programs

FC DALLAS

Partnership Opportunities

- Pilot Program: Test with first team, measure results
- Fan Engagement: Giveaways, retail, academy promotions
- Co-Branded Bottles: FC Dallas edition for athletes & fans

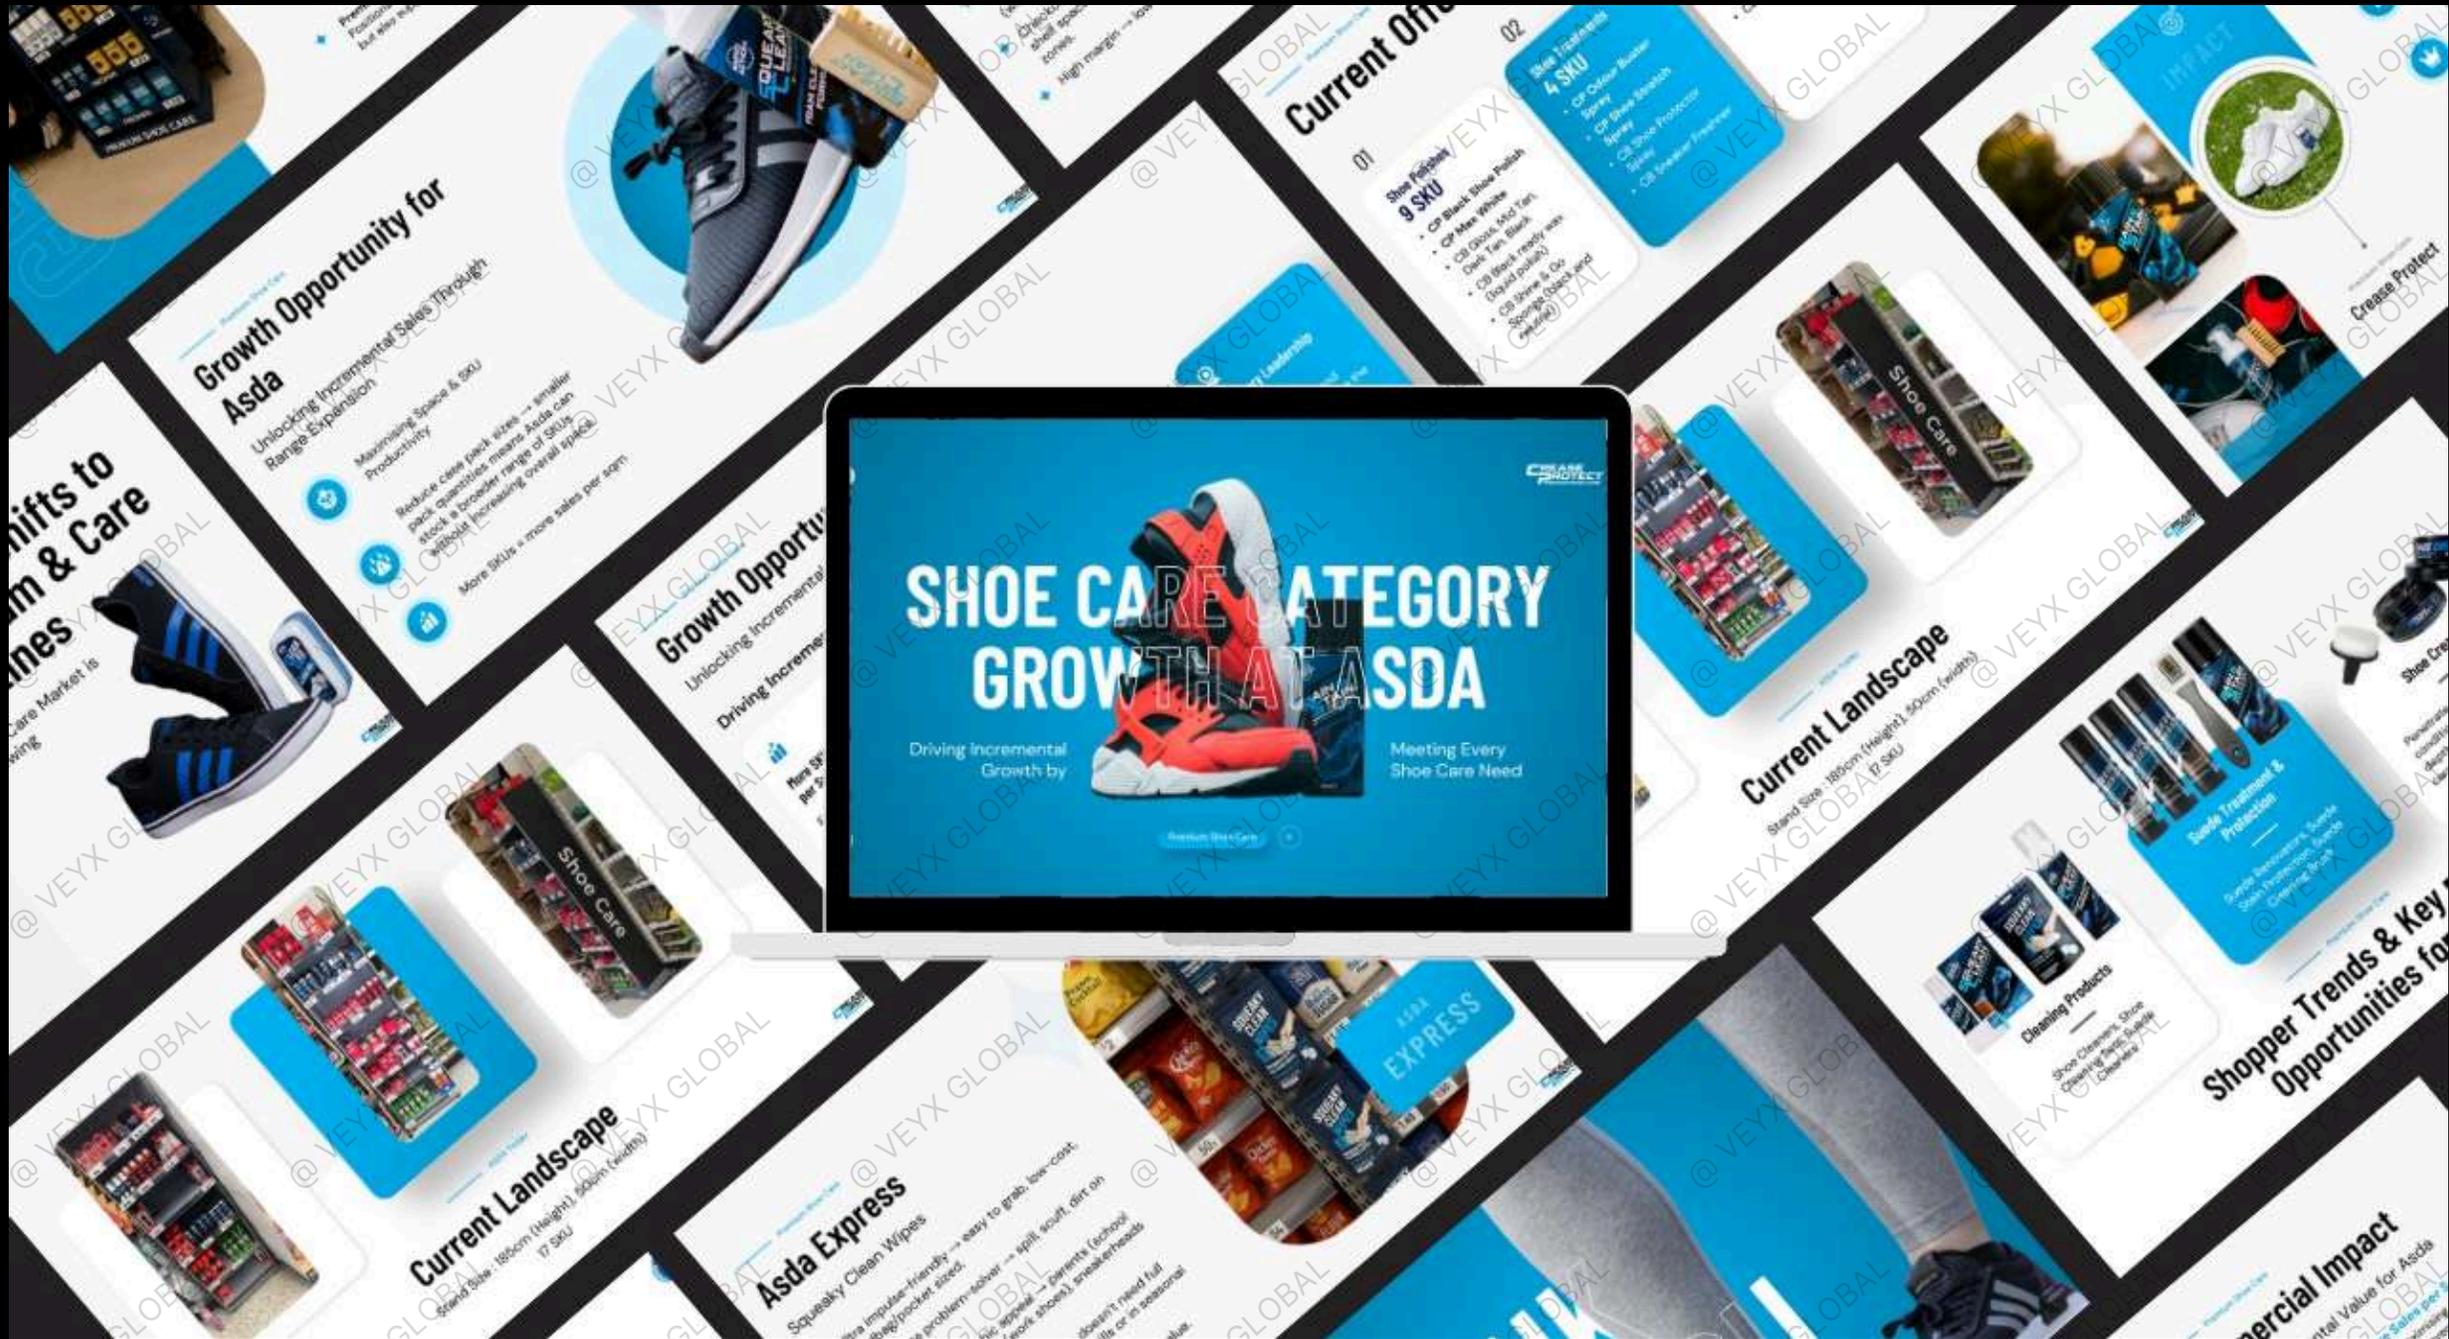

How It Works

Bottle → Mobile App

- Tracking: Real-time hydration tracking
- Separate Profiles: Athlete & individual bottles

Prevention + Intervention for Smarter Student Loan Repayment

Helping universities protect Title IV eligibility and students reduce debt before repayment even begins

Original Loan	\$1,500
Interest	\$245
Final Repayment	\$245

How the Solution Works

The Solution

Reducify is the only platform focused on

Alpha Foyan
 CEO & Co-founder

Alpha Foyan is a former university student who worked at a bank for 10 years and then started her own business. She is passionate about helping students with their loans.

Christina, CTR
 CEO & Co-founder

Christina is a former university student who worked at a bank for 10 years and then started her own business. She is passionate about helping students with their loans.

Business Model

We offer annual subscriptions for universities, aligned to graduation cycles (Spring and Winter). Pricing is tiered based on number of federal loan borrowers and includes:

Example: \$25,000 per 1000 students per year
 + Future DCC-upsell potential post-year

Traction

Despite being pre-revenue, Reducify has helped repay \$180,000 in student loan debt.

Co-founder Alpha Foyan & Sonya Foyan. Co-founder Sonya Foyan is a former university student who worked at a bank for 10 years and then started her own business. She is passionate about helping students with their loans.

Market Opportunity

3,544 graduate schools in the US

17.8B in total loans

23% of borrowers default within 12 months of their grace period

Competitive Edge

Designed with equity: allowed for Reducify, Alpha Foyan, and Sonya Foyan to share in the success.
